Professional Summary

Software Engineer with 5+ years of experience building enterprise web applications, AI-powered products, backend APIs, and modern frontend experiences. Skilled in Angular, React, Next.js, Node.js, Express, TypeScript, and AI-assisted engineering. Experienced delivering production software from architecture through deployment while leveraging AI automation to accelerate development.

Core Skills

Angular • React • Next.js • Node.js • Express • TypeScript • JavaScript • RxJS • NgRx • Angular SSR • Tailwind CSS • PostgreSQL • MySQL • Prisma • Docker • Playwright • OpenAI API • Cursor • ChatGPT • Claude • Git • REST APIs • Stripe • Google Maps

Professional Experience

Software Engineer | Bridginex (Remote)

Oct 2023 – Present

- Delivered software across 16+ production projects including enterprise CRM systems, AI platforms, automotive products, and event ecosystems.
- Architected and developed The Bridge CRM from scratch, enabling community operations, events, registrations, and administration.
- Designed and implemented 100+ REST APIs using Node.js and Express.
- Built AI-powered recruitment, candidate ranking, and business automation solutions using OpenAI APIs.
- Built SSR applications with Angular and Next.js and contributed to React Native mobile applications.
- Mentored junior developers, reviewed pull requests, estimated work, and collaborated across engineering teams.
- Completed 400+ engineering tasks, resolved 400+ production issues, and supported applications serving 1,000+ concurrent users.

Software Engineer | Quantsapp

Jun 2023 – Sep 2023

- Developed features for a real-time options trading platform using Angular and Node.js.

- Implemented WebSocket-based live market data updates and optimized event-driven UI performance.

Software Developer | Adis Technology

May 2021 – May 2023

- Developed enterprise CRM and ERP systems for the diamond manufacturing industry.
- Built Angular and Node.js modules supporting end-to-end diamond tracking from rough stones to finished products.
- Mentored interns and contributed across frontend and backend development.

Selected Projects

- The Bridge CRM – Enterprise CRM built from scratch.
- HR AI Recruitment Platform – AI-powered recruitment automation using OpenAI.
- MotoExpert – Automotive platform across web, backend, and mobile.
- AgentMesh – AI-driven matching platform.
