

Bhargesh Patel

Full Stack Software Engineer | AI-Powered Product Development

✉ pbhargesh82@gmail.com ☎ [+919033719592](tel:+919033719592) 📍 Surat, Gujarat, India 🌐 [Portfolio](#) [LinkedIn](#) [Github](#)

Summary

Full-stack software engineer with 5+ years shipping enterprise web applications and AI-powered products, with a frontend-leaning core in Angular and React. Owns features end-to-end — from UI and API design through data modeling and deployment. Built and shipped AI-driven recruitment and matching platforms processing 1,500+ candidate profiles, an enterprise CRM now running operations for a 1,000+ member community, and 100+ production REST APIs. Comfortable working AI-in-the-loop (OpenAI API, Cursor, MCP) to move faster from requirement to production without cutting quality.

Skills

Frontend

Angular, React, Next.js, Vue.js, Svelte, RxJS, NgRx, Angular Signals, Angular SSR, Tailwind CSS, SCSS, Angular Material, PrimeNG, Bootstrap

Backend

Node.js, Express.js, REST APIs, Prisma, Sequelize, JWT, OpenAPI, Supabase, Firebase

Databases

PostgreSQL, MySQL, MongoDB, Redis

AI & Automation

OpenAI API, Prompt Engineering, Cursor, MCP, AI Automation, Playwright (browser automation & E2E testing)

Languages & DevOps

TypeScript, JavaScript, SQL, HTML5, CSS3, Docker, Git, GitLab CI, Netlify, Vercel

Integrations

Stripe, Google Maps API, Socket.IO, WebSockets

Experience

[Bridginex Pvt. Ltd.](#)

Sofia, Bulgaria (Remote)

Software Engineer

Oct 2023 – Present

- Architected The Bridge CRM from scratch (Angular SSR, Node.js, Express, PostgreSQL), replacing a client's manual, spreadsheet-based process for events, subscriptions, and donations — now the operational system of record for a 1,000+ member community, backed by 40+ REST APIs.
- Built an AI-powered recruitment platform that automates candidate sourcing and ranking for hiring teams — combining GPT-based resume scoring with Playwright-driven sourcing/scraping to process 1,500+ candidate profiles, cutting manual screening time and improving match quality.
- Extended that platform into AgentMesh, an AI-driven profile-matching product that screens and ranks candidates against client-defined criteria using OpenAI-powered semantic matching, with its own authentication and backend APIs.
- Rebuilt MotoExpert from a legacy Angular/Capacitor web-wrapper with tangled, undocumented APIs and no clear data model into a React Native app with native-app feel, backed by a redesigned Express + Prisma backend — improving speed and UX; live and in active use today.
- Reviewed pull requests and mentored junior engineers across a team of up to 10; resolved 400+ production issues over 10+ production deployments.

[Quantsapp Pvt. Ltd.](#)

Mumbai, Maharashtra

Angular Developer

Jun 2023 – Sep 2023

- Built live, real-time UI features for a production options-trading webapp used by 5,000+ traders (Angular, Node.js, WebSockets), streaming continuous market data — hands-on introduction to event-driven architecture at scale.
- Optimized rendering and state management for high-frequency data updates, building a practical foundation in performance tuning for large-scale, real-time applications.

- Engineered a diamond manufacturing ERP/CRM used by a 2,000-person production and back-office team, tracking rough stones end-to-end — from laser sawing through cutting, polishing, and inventory grading — for a factory processing 500–1,000+ stones monthly.
- Built employee payroll and role-based access control (RBAC) modules used across the production floor and back office.
- Mentored 3 interns across frontend and backend development.

Personal Projects

Auction.io

Built out of personal necessity for our own cricket league's recurring player auctions: live bidding, player pools, and team budget tracking. (Angular, Supabase)

AI Guardrails

Reusable framework enforcing scope and behavioral constraints on AI-assisted coding, with pre-commit and CI checks plus Cursor/MCP integration guides. (Next.js, TypeScript)

Education

Veer Narmad South Gujarat University

Bachelor of Computer Applications

Surat, Gujarat • 2017 - 2020
